One-time Harvest Recurring Harvest

Recurring SUSHI Harvest

Vendor Name Project Muse

Schedule Monthly, Day 17th

Version COUNTER 4

Report Type* JR1 JR1 GOA JR2 JR5 BR2 BR3 BR4 BR5 DB1 DB2 PR1

Start Date* 02/20/19

Status Active Inactive

SUSHI harvest: set it and forget it!

Options Licenses Circulation Interlibrary Loan Analytics Admin

Harvest History

Harvest Actions

Filter by Vendor: ... Harvest Configuration: ... Result Counts: ... Reset

Results 1 - 1 of 1 Rows 100

| Vendor | Version | Harvest Configuration | Result Counts | | | | Details |
|----------------|-----------|-----------------------|---------------|---------|----------|-------|---------|
| | | | Queued | Success | No Usage | Error | |
| IOP Publishing | COUNTER 4 | SUSHI | 2 | 437 | 223 | 631 | View |

Results 1 - 1 of 1 Rows 100

That's a lot of errors.

| Status | Results |
|--------|---|
| Failed | Vendor reports no usage data available for requested dates. ? |
| Failed | Vendor failed to send report. Contact the vendor or try again later. ? |
| Failed | Error encountered while harvesting. ? |
| Failed | Vendor did not accept credentials provided. Check your credentials and try again. ? |

...and this is why!

Advice From One Of the OCLC WMS SUSHI Harvest Users in the Country

- **Be patient.**
 - Sending out 600 SUSHI calls → if something's not working quite right, you get 600 errors.
- **Iteration is your friend.**
 - Maybe treat COUNTER emails as a reminder to check up on your harvester; add a setup; go in & fix a thing or two each month.
- **GET STARTED!**
 - Anything you get done is better than the nothing you started with.

Thank you!
