# Need We Say More?

With your support, we can build a 150-foot beach from 10th to 61st Streets by Summer, 1994...not years from now, but within a few months!

## Let's Keep Galveston Island moving in the right direction

Exciting things are happening in Galveston. The success of Moody Gardens, turnaround of the Port, arrival of the Day Cruise Ship, the opening of Strand Harborside, progress on the East End Flats, growth at UTMB are just a few signs of hope for our treasured Isle.

Now, we have a chance to rebuild the beaches that made Galveston the Gem of the Gulf Coast. By approving a one-eighth-cent sales tax partly paid by tourists to invest \$4.8 million in new beaches for Galveston, you can ensure our recent progress will continue well into the future.

Good beaches are good for every Galvestonian, whether directly involved in tourism or not. Tourism businesses and their employees buy food, health care, clothing, housing, furniture, cars, gasoline, hardware, office supplies, insurance...you name it.

The new Galveston beaches will stimulate business growth and development potential on the Seawall, to be sure, and will help the tourism industry continue to prosper. But what goes around comes around, and the economic impact of this great improvement project will be felt all over the Island.

Similar projects in other cities have generated hundreds of new jobs, have helped retain countless others, and have helped create tens of millions of dollars of new construction, rehabilitation and redevelopment. The same great results can come home to Galveston!

Not to mention the fact that you and every other Galvestonian will enjoy the pleasure of 150-foot beaches right here in your own back yard! They can't build something like this in Plano or in River Oaks!

**Vote "4" progress. Vote "4" beaches and jobs. Vote "FOR" Issue #4 in the citywide election Tuesday, NOVEMBER 2, and do your part to help Galveston come into her own.**
