Biographical Note

The Galveston Bay Information Center (GBIC) is a collection of books, pamphlets, maps, other printed materials, and digital scans of documents related to Galveston Bay. The collection is located at Jack K. Williams Library. The Maritime Human Factors Database Project was run by Cathy L.P. Palmer from GBIC. The purpose of this project was to develop bibliographic and informational electronic resources supporting maritime human factors research by the federal and state maritime academies of the United States, with the goal of better serving a dynamic maritime industry. Human factors considerations of interest encompass all aspects of human operations in the maritime transportation system such as recruitment, education, training, licensing, skills and task analysis, organizational

relationships, work hours and overtime policies, traditional ergonomics and design issues, automation, system reliability and safety, hiring practices, physical requirements, and other related issues. The papers consist of a survey, administration information, and binders of articles and information.

Scope and Content Note

These papers contain the documentation for the Human Factors Research Program. They include reports, administrative information, thesaurus for the project, floppy disks, and surveys.

Organization of the Papers

Series 1. Proposals and Reports
Series 2. Survey
Series 3. Thesaurus
Series 4. Miscellaneous
Series 5. Binders
