Galveston Bay Estuary Program

Officially established in 1989, the **Galveston Bay Estuary Program** (GBEP) is one of two estuary programs in Texas. We are also one of twenty-eight National Estuary Programs (NEPs) in the United States. As a non-regulatory program administered by the Texas Commission on Environmental Quality, we are charged with implementing The Galveston Bay Plan — a Comprehensive Conservation Management Plan for Galveston Bay. Our office is located in Houston, Texas. A Program Director and seven staff members oversee The Plan's implementation.
